Counter Terrorism Explosives Recognition Active Shooter Management

Six Hour First Responder Webinar through Zoom

Ideal for Police, Fire, Emergency Management, SAR & Private Security

Learn about Commercial, Military, Homemade Explosives & IEDs

Commercial

Military

Home Made

Improvised Devices

Why American Explosives Group?

We provide relevant and exemplary training to First Responders equipping them with the information they need to protect themselves and the public against explosive based threats. These mass-casualty events often include the mix, or the threat of a mix of both firearms and explosives to harm as many people as possible.

We will share best practice strategies to respond. Better yet, we will also share with you some tools to help you discover pre-threat indicators that may allow you to prevent a tragedy instead of just responding to it. Our training is five-star rated with students telling us it is the best, most educational and most enjoyable training they have ever attended.

After years of providing live-blasting training, we were inspired to create an online, low cost program to reach as many First Responders as possible.

What You Will Learn

- Explosive Material Types, Forms and Classifications
- Review of Commercial, Military and Homemade Explosive Materials
- An Introduction to IEDs and their Components
- Responses to Threats including Combined Active Shooter and IED Scenarios
- Situational Awareness Strategies to discover Pre-Threat Indicators before a Tragedy
- Strategies for Mobs, Protests, and Riots
- Case Review from our U.S. IED-Active Shooter Mass Casualty Event Database
- Learn Critical Leadership, Teamwork and Communication Skills

What You Will Get

The class is only **\$89** per student and includes:

- **Explosives, IEDs and Breaching for Law Enforcement** textbook (a \$27.95 value).
- Frameable certification for six hours of training
- American Explosives Group Star Velcro tactical patch and sticker
- Welcome to attend future online classes at no additional cost

Class includes Paperback, and PDF Textbook, Velcro Patch and Training Certification.

Who Can Attend

You must be a First Responder or Military to attend. This includes: Police, Sheriff, Fire, EMT, SAR, 911 Operator, Public Safety / Emergency Agency, and Private Security. Or you must be enrolled in college as a Criminal Justice, Emergency Management or Fire Science related major.

Webinars every month, on a Saturday, 9:00 AM to 3:00 PM.

From the professional Do North Media studio. In-person and live blasting classes also available at our location in Lake Havasu City, Arizona, or possibly your location.

Here What Our Alumni Are Saying

"Many, many thanks to you and your team. It was definitely time well spent and very informative & quite literally a Blast!" Billy Rogers, SWAT Magazine

"The First Responder class allows you to see a threat firsthand, which we must now view as a reality." Jake Koski, Jefferson County Sheriff Deputy

"Great class well worth the time and money, learned a lot in just 8 hours of class and field training that you won't learn from others. Best part is you get to participate with the different kinds of explosives and watch the power of it. I give it a 5 star out of 5. I'll be looking into future advanced classes. Thanks for the class Jack W. Peters!" Zack-Kim Wilson, Umatilla Fire

"Thanks so much Jack, the class was great! I wouldn't change a thing and the book is a great reference. Thanks again for expanding my knowledge and you and your guys have an interesting job and lives and I enjoyed the "energy" both chemical and personality that you all brought to the class." Leilani Monson, RN, Senior Health Compliance Officer, Oregon OSHA

"On behalf of our membership and the OVFA Board of Directors, I would like to extend our appreciation to you for your presence and expertise at this year's OVFA training conference. The training and knowledge you provided to our attendees was very well received, informative and thought provoking. Thank you again for your dedication for training Oregon volunteer firefighters." Rex Parks Sr., President, Oregon Volunteer Firefighters Association.

"Jack; it was an excellent class, the presentations by you and all your staff was great, and the field work was top notch and in a level we could understand. I would recommend the training to anybody. Great job." Rod Cameron, Oregon OSHA

"I just wanted to let you know that I thought the class was presented very well and I learned a lot. I enjoyed meeting the other participants and had a very fun time. You will be hearing from me in the future for more of your classes." Capt. D. Pitmon, G4S Secure Solutions USA

"Thank you Jack for the opportunity to learn about explosives and be such a more knowledgeable officer. This training would be very beneficial to any security officer." L. Craft, G4S Secure Solutions

"Although I have been working with explosives for a number of years, I found the AEG class to be thorough, informative and enjoyable. Jack exposed me to some new ideas and held my attention, even during the regulatory requirements portion of the class." Vic Elam, Fish & Wildlife, Hartford, Kansas

"Thank you very much. I had a fantastic time and learned a lot! You have a really great operation." Troy M., Intelligence Officer, U.S. Navy

"Had a great time training with Jack and the great people of AE Group! Look forward to additional AEG training in the future!" C. Titis, Linn County Sheriff's Office SWAT

"Excellent training, the team building element was very helpful!" M. Stuart, BIC, Utah DOT

"Informative, interesting and interactive. Much better than any other training we have had before!" K. Andrew, BIC, Utah DOT
